ATHLETILEARN

Unlocking the Path to Entrepreneurial Success Through Sport-Based Skill Development

Productive progress during the TPM3 meeting

On May 14, 2026, the AthletiLearn project partners met at the third transnational project meeting (TPM3), hosted by PGAZ in Vidin, Bulgaria. The aim of the meeting was to evaluate the progress made, coordinate upcoming activities and prepare for the next important phases of the project.
The consortium confirmed that the project is continuing on schedule, with all partners collaborating effectively and successfully achieving several significant milestones.

WP2–Curriculum development nears completion

CEBANC presented an updated version of the curriculum and discussed adjustments before finalization. Partners are currently adding additional materials, photos and examples of good practices to enrich the final document.
The completed curriculum will also be closely linked to the upcoming Teacher's Guide, ensuring practical and easily accessible support for educators across Europe.
After approval of the final version, the process of translation and graphic editing of the document begins immediately.

Unlocking the Path to Entrepreneurial Success Through Sport-Based Skill Development

WP3–International Training Week in Bratislava

One of the most exciting upcoming activities is the international training week in Bratislava, planned for November 2026.
Students from partner countries will participate in interactive sport and entrepreneurship activities designed to encourage teamwork, communication, inclusion, and creativity.
Key preparation topics discussed during TPM3 included:
activity planning and organization;
student selection criteria focused on diversity and inclusion;
accommodation and logistics;
social and cultural activities;
evaluation and quality assurance.
Partners are also preparing customised AthletiLearn sports shirts for all the participants.

WP4–Teacher Guide and National Roadmaps

The development of the teacher's guide is progressing steadily and will be completed in the coming months.
In parallel, partners will work on national implementation plans that will adapt the AthletiLearn project materials to local education systems and vocational training contexts.
Testing activities for the combined curriculum and manual are planned for fall 2026.

WP5–Dissemination of project results and activities on social networks

The partnership continues to actively promote the AthletiLearn project through newsletters, social media campaigns, press releases and project websites. Upcoming dissemination activities include:
regular posts on social networks,
promotional videos (reels) prepared by all partners,
- promotional materials for multiplication events,

press releases presenting the project's results.
A project sustainability strategy will also be launched later this year, focusing on integrating AthletiLearn resources and materials into long-term educational practice.
